

All Ultrex® Double Hung

Integrity
from **MARVIN**
Windows and Doors
All Ultrex® Series

Removable sash
The Double Hung features dual operating sash that both tilt and remove with no tools and no cord or strings to detach.

- An interior and exterior of Ultrex, a pultruded fiberglass material that is 8x stronger than vinyl and twice as strong as steel, provides a job site tough product with a virtually maintenance-free experience, while delivering ENERGY STAR rated performance.
- Patented Ultrex finishing process resists the marring, scratching, fading, chalking and streaking, common to vinyl and other composite windows. (Stone White interior: Stone White or Pebble Gray exterior finishes available.)
- Standard double strength Low E glass and Ultrex's low rate of thermal expansion and contraction prevent seal failures, stress cracks and job site damage.
- 11 degree sloped sill provides superior water management and provides a more traditional, appealing appearance.
- Majority of Double Hung sizes feature high DP performance ratings. (WDMA certification pending.)
- Double Hung units are available in the same sizes and configurations as the All Ultrex Single Hung. (see catalog or www.integritywindows.com for sizing details)
- All operating Double Hung units come with a standard full screen.
- Current Picture, Transom and Polygon units compliment the Double Hung for multiple assemblies.
- Profiled GBGs available in Colonial and new Prairie lite cuts.
- Same fast, on time and defect-free delivery that is synonymous with the Integrity name.

Double Hung

Bring traditional beauty where it hasn't been traditional. The All Ultrex® Double Hung windows offer clean, even and measured sight lines that provide significant depth where historically only a flat vinyl facade has been present. A standard 2" jamb depth and available factory applied jamb extensions, sheetrock return, folding nailing fin, and field applied j-channel make installation a snap. Factory 1/2" space mulls and field mulling kits make multiple assemblies and combinations with picture, transom, and polygon units a breeze. The All Ultrex Double Hung window is a tough, durable virtually no call back product that outperforms vinyl in every way.

Tilt latches
Ergonomically designed and easy to operate making tilting and cleaning this window even easier.

Positive locking sash
Sash lock provides a positive detent, reassuring user that the window is either locked or unlocked.
