

Builders Masterpiece® Interior Latex Semi-Gloss

- Simply the best in applied hide and hold out (uniformity of gloss level when applied over a flat primer)
- Formulated with extra sag resistance to reduce painter error
- Low temperature application properties allow for painting to continue on unheated job sites
- Superior scrub resistance for longer lasting, durable finish

Weathershield® 100% Acrylic Exterior House Paint—Semi-Gloss

- Ideal for exterior wood trim, doors, shutters and fascia
- Contains Micro-encapsulated pigment for extended color fastness and durability
- Excellent applied hide and sheen uniformity for true one-coat coverage
- Superior block resistance versus competitive products
- Low temperature cure properties help extend the painting season

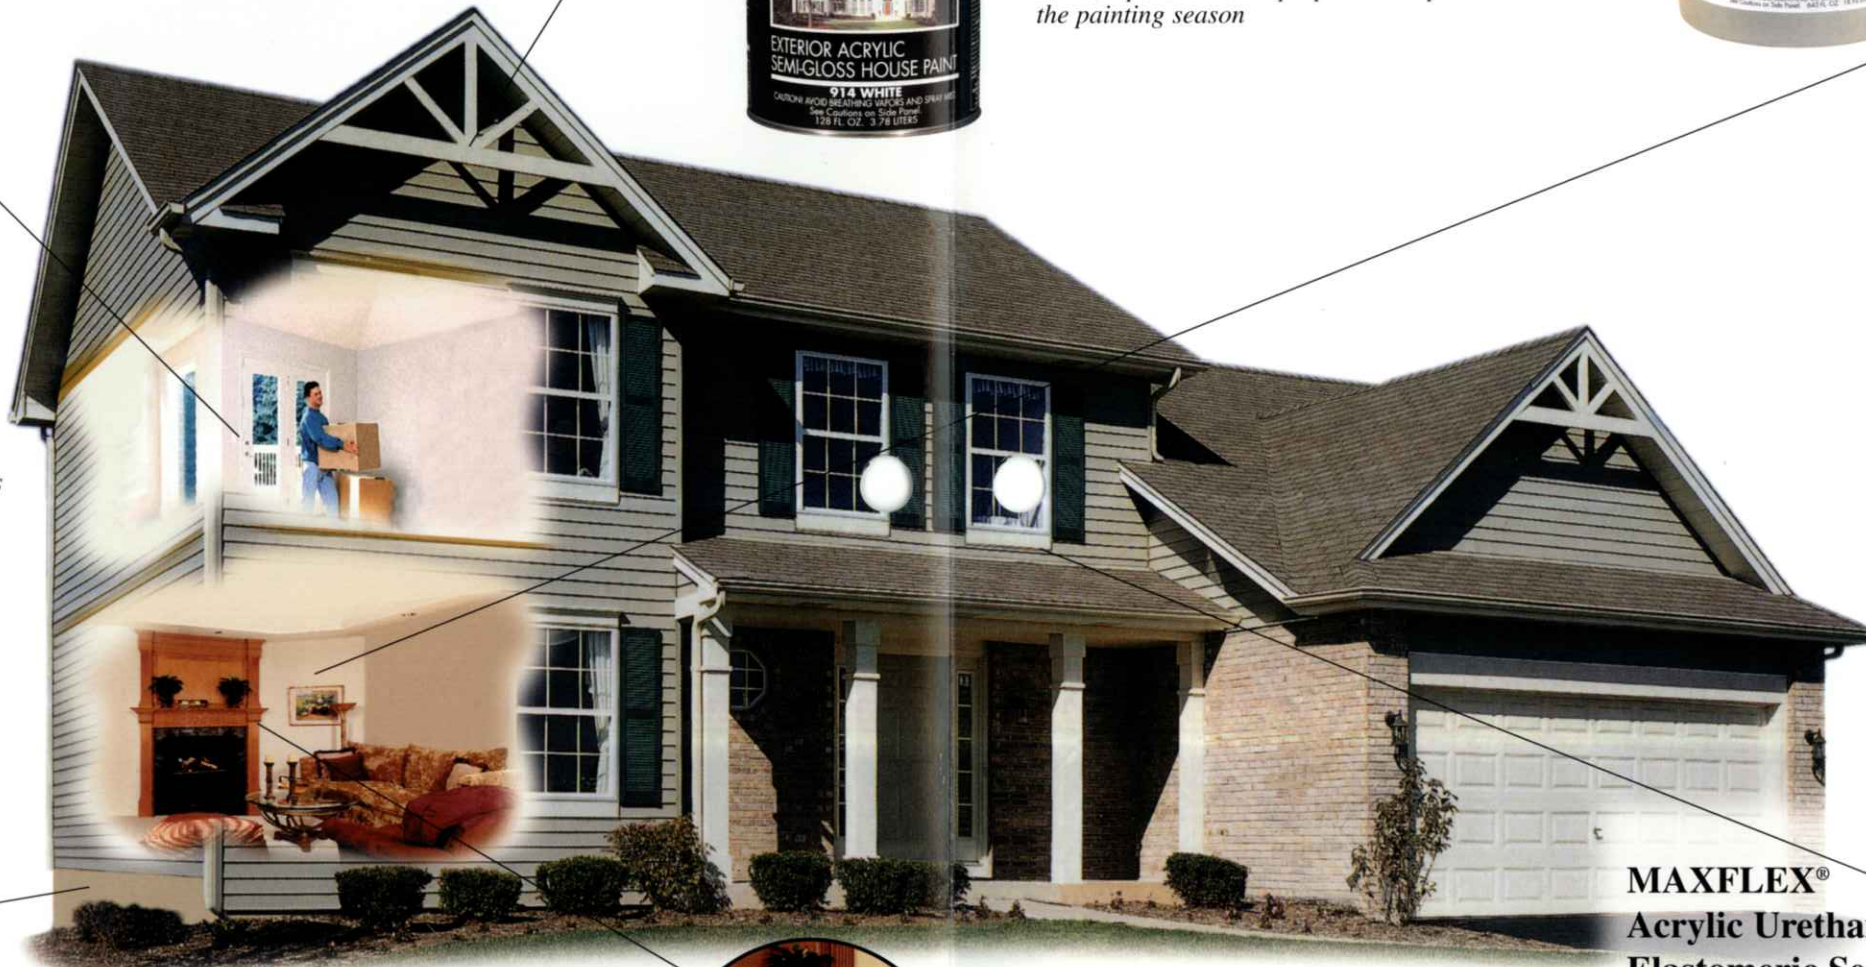

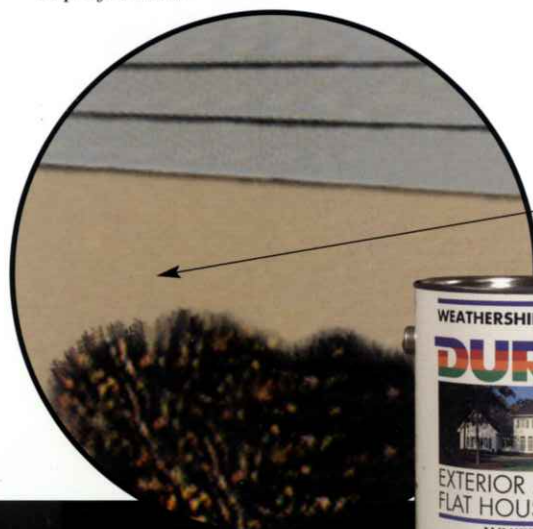

Supreme® Interior Latex—Flat

- Formulated specifically for spray application, but also produces excellent results when back-rolled to reduce surface imperfections
- Superb touch up characteristics by spray or roller applications
- Applied hide allows for one-coat coverage over most interior surfaces
- Twice the scrub resistance of leading competitive products
- Excellent cold weather touch up properties provide a perfectly uniform sheen and color match

Weathershield® 100% Acrylic Exterior House Paint—Flat

- Excellent for application to large wood siding areas or masonry foundations
- Micro-encapsulated pigment for improved fade and chalk resistance compared to conventional exterior house paints
- Uniform flat finish helps to mask surface imperfections

Magnum XL® Acrylic Sealant with Silicones

- 40 year durability
- Adheres to wood, drywall, ceramic and glass

MAXFLEX® Acrylic Urethane Elastomeric Sealant

- 50 year durability
- Seals and protects against water damage by remaining flexible—not brittle

For over 50 years Duro has produced the products to cover and protect your home—both inside and out.
